

Pride

*Household, Industrial,
and Institutional Products*

Basic Surfactants

Alkanolamides (Liquid + DEA Free Available)	Imidazolines
Alpha Olefin Sulfonate (AOS)	Linear Alcohol Ethoxylates (LAE)
Amine Oxides (Low, Moderate and High Foaming)	Low Foam Nonionics (Versum, BASF, Colonial & Stepan)
Amphoterics	Nonyl Phenol Ethoxylates (NPE)
DDBSA (Acids and salts)	Octyl Phenol Ethoxylates (OPE)
EO/PO Block Copolymers	Phosphate Esters
Ether Amines & DiAmines	Secondary Alcohol Ethoxylates
Ethoxylated Ether Amines	Sodium Lauryl Sulfate (SLS - both liquids & powders)
Ethoxylated Fatty Amines	Sodium Lauryl Ether Sulfate (SLES)
Ethoxylated Ether Amine Quaternaries	Sodium Xylene Sulfonate (SXS)

Concentrates

Liquid Dish & Laundry Detergents	Many to choose from
Liquid Hand Soap Concentrates	Many to choose from
Colastat 5911	Completely formulated liquid antistat/cleaner concentrate
Steposol DG/Tomadyne 102 & 108	Unique, solvent free, high performance degreaser & hard surface cleaner concentrates that do not require builders

Disinfectants / Sanitizers

Stepan BTC	A full line of EPA registered quaternaries & formulations. Complete sub-registration packages available upon request.
Stepan SO/SAN 30M	EPA Registered softener/sanitizer. EPA sub-registration packages available upon request.
Colamulse PCMX	100% active nonionic concentrate containing the active ingredient PCMX. Can be added to hand soap bases to make an antibacterial finished product.

Specialty Products

Accosoft Series	Full range of household, commercial and textile softeners.
APG's	Alkyl Polyglucosides. Stable in extreme acid and alkaline solutions with varying levels of foam.
Antistatic Agents	Full line of Tomamine Quaternaries from Versum Materials.
Bio-Terge PAS-8S	Hydrotrope/detergent for high acid, alkaline and bleach containing systems. Passed DfE screen for Direct Release.
Colacor Series	Line of corrosion inhibitors
Colaquat SME	Cationic surfactant which neutralizes a wide range of odors
Colateric AM	Liquid surfactant that thickens mineral and organic acid systems. Compatible with anionic, cationic and nonionics
Colateric C-8	Low Foam Amine Oxide
Colateric CYAB	Caprylamidopropyl Betine. Cleangredients DfE listed. Excellent hydrotrope with detergency and a low, fast breaking foam. Can replace SXS at much lower concentrations.
Colateric HLA/HFA	High foaming amphoteric surfactants with outstanding hydrotroping properties in high electrolyte systems.
Colateric LHS	High foaming, readily biodegradable amphoteric with excellent stability in both extreme acid and alkaline systems.
Colatropo CA and OD	Nonfoaming and moderate foaming hydrotropes for use in neutral to highly alkaline systems. Cleangredients DfE listed.
Coupling Agents (Hydrotropes)	Choose from Colonial, Stepan and Versum. Various foam levels, caustic and electrolyte capability and detergency.
Polysugamulse D6/D9	100% Bio-based oil and fragrance emulsifier with HLB of 9 & 13
Polysugapearl	Naturally derived cold-mix liquid pearlizing agent EO + Sulfate Free
Shellsol GTL Solvents	High purity isoparaffinic hydrocarbon solvents derived from unique gas to liquid technology.
Stepanquat 50 & 65	Benzalkonium Chloride that is not EPA registered but rather designed for use as preservatives.

Specialty Products (Cont.)

Steposol Citri-Met	Revolutionary technology that delivers green high performance cleaning. Can out perform products containing 40% petroleum solvents.
Steposol MET-10U	Novel low HLB nonionic surfactant derived from natural oils with xtremely high KB value. Can replace solvents and develop safer formulations due to similar performance at lower pH than traditional high alkaline cleaning systems.
Sugadet SFB	Naturally derived, sulfate free surfactant concentrate for hand soaps meeting the newest "green" trends.
Suganate 100NC	High Foaming APG derivative. Provides good emulsification, skin mildness and excellent lime soap sispersion.
Suganate 160 / 160 NC	Naturally derived, zero irritation alkyl polyglucoside sulfonate. Overcomes typical APG shortcomings of low foam and high irritation.
Super Wetting Agents	Choose from DOSS type, Silicone based or Fluoro based.
Thickening Agents	Capigel and Solagum liquid thickeners from Seppic. Excellent for making silicone/water based emulsions and for thickening alkaline cleaning solutions.
Tomadol 902	Provides enhanced cleaning and degreasing compared to traditional NPE and LAE nonionic surfactants without the need for solvent. Cleangredients DfE listed.
Tomakleen G-12	Solvent replacement product that provides faster cleaning and reduced VOC's Cleangredients DfE listed.
Tomamine Acid Foamer	Provides dense, stable foam in strong acid systems.
Tomamine Acid Thickener	Cationic surfactant that builds viscosity with mineral and organic acid systems.
Tomamine Amphoteric 12	Low Foam, DfE screened hydrotrope/detergent with high caustic solubility. Can replace SXS at much lower concentrations.
Tomamine Amphoteric 16	High Foam, DfE screened hydrotrope/detergent with high caustic solubility. Can replace SXS at much lower concentrations.
Tomamine E-300	Mineral Seal Oil emulsifier for automotive spray wax/drying applications

Silicones

Dimethyl Fluids	Full range of viscosities from 5 CST to 100,000 CST
Silicone Emulsions	For automotive, institutional, and polish applications
Antifoams/Defoamers	Industrial as well as Kosher food grade versions.

Miscellaneous Products

Alcohols (Benzyl, Ethyl, Isopropyl, Methyl,)	Hydrocarbon Solvents (Aliphatic and Aromatic)
Amines (MEA, DEA, TEA, MIPA, DMEA, DMAPA, AMP-95)	Ketones (Acetone/MEK/MIBK)
Antistatic Agents	Lactic Acid
Caustic Soda (liquid & beads)	Methyl Ester Solvents (Non Prop 65 available)
Chelating Agents (DfE listed available)	Mineral Oils (USP and Tech Grade)
Chlorinated Solvents	Mineral Seal Oils
Citric Acid	N-Methyl Pyrollidone (NMP)
Dibasic Ester (DBE)	Neodol Linear Alcohols
D-Limonene	Odor Eliminators
Dry Cleaning Fluids (Ecosolv DCF)	Propylene Glycol (USP, Industrial, and Bio-based)
Ester Acetates	Shellsol and Soltrol Isoparaffinic Hydrocarbon Solvents
Ethyl Lactate	Tetrahydrofuran (THF)
Fatty Acids (Oleic, Stearic, etc.)	Thickening Agents (Capigel and Solagum Liquid Thickeners)
Fatty Alcohols (Cetyl, Stearyl, etc.)	Tomamine Ether Amines/Ether Diamines
Glycerine	Tributoxyethyl Phosphate (TBEP/KP-140)
Glycols (EG/DEG/TEG/HG/DPG/PG)	
Glycol Ethers (E-Series and P-Series)	
Glycol Ether Esters (E-Series and P-Series)	

Distributing Quality Products From:

Alnor Oil
Archer Daniels Midland (ADM)
BASF
Bluestar Silicones
Calumet Specialty Products
Celanese
Central Indiana Ethanol (CIE)
Chevron Phillips Chemical
Colonial Chemical
Dow Chemical
Eastman Chemical
Equistar Chemical LLC
ExxonMobil Chemicals
Harcros Organics
Honeywell Resins & Chemicals
Huntsman
Ingredion
Inovyn

Jarchem
LyondellBassel
Monument Chemical
Olin/Blue Cube
Oxea Corp.
PBF Energy
Penreco
PMC Biogenix
Procter & Gamble Chemical
Sabic
Sasma
Sasol Chemicals, NA
Shell Chemical Company
Solvay
Stepan Chemical
Trico Technologies
V V F Chemical
Versum Materials (Formerly Air Products)
